About us

From our humble beginnings, Holly Poultry was simply an inner city "ice packed" chicken distribution arm of Holly Farms (an integrated processor that today is owned by Tyson Foods Inc.). In the early 1960's Holly Poultry was spun off from the parent company and became an independently owned distributor servicing the Baltimore market.

Through our distributor partners, we began providing a fresh local supply of poultry-based products better suited to meet their customer's needs. Increased product categories, combined with the expanded geographic market, supported our substantial year over year growth.

State Street Provisions offers full lines of beef, pork, seafood, fowl and turkey.

It would be a privilege to welcome you to our family!
